**Title:** The social cost of carbon: ethics and the limits of climate change economics by Kelleher, Paul J

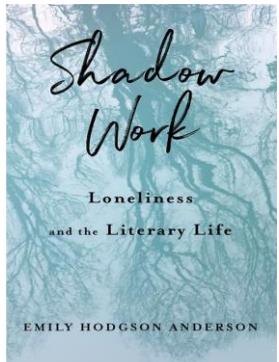

New York Oxford University Press 2025

**Acc. No.** 009389

**Call No.** 333.79 KEL

**Summary:** This book offers the most systematic analysis yet of the social cost of carbon, its theoretical basis, and its proper role in climate economics and climate policy design. It explains that the SCC is not one concept but four, each of which is addressed to a distinct task in climate economics. The book explains these radically different theoretical frameworks and how a mathematically identical pair of SCC concepts can emerge from each. The book explains how at least some SCC concepts can and should be put to work in real-world climate change policy analysis.
