**Sr. No. 20**

**Title:** Integrating blockchain into supply chain management: a toolkit for practical implementation by Hoek, Remko Van.

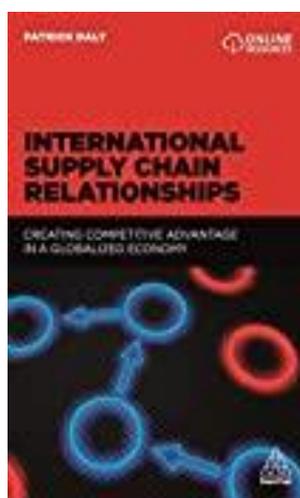

London Kogan Page Limited 2020

**Acc. No.** 001377

**Call No.** 658.7028557 HOE

**Summary:** Integrating Blockchain into Supply Chain Management is a very practical book of tools, frameworks and case studies. It will help students and supply chain managers to evaluate the value proposition blockchain brings. It will then guide them through essential processes for making informed, practical, timely, and business-savvy decisions for using blockchain as an effective supply chain tool.

[Click for more details](#)

**Sr. No. 21**

**Title:** International supply chain relationships: creating competitive advantage in a globalized economy by Daly, Patrick

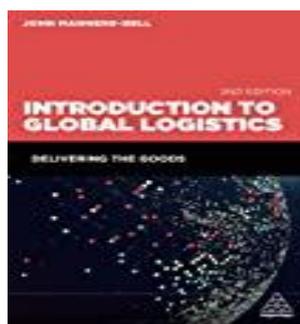

London Kogan Page Limited 2019

**Acc. No.** 001378

**Call No.** 658.7 DAL

**Summary:** International Supply Chain Relationships aims to provide supply chain practitioners in any type of business with ideas, tools and strategies that they can readily access, interpret and put into practice speedily and pragmatically to create value for their own international business. In many instances, supply chain projects bring together people from different disciplines who may come from different cultures and ethnic backgrounds. Add in long distances and different time zones and the complexities and challenges of sustaining successful working relationships increase even more. This book provides case studies which illustrate how to manage these arrangements effectively.

[Click for more details](#)

**Sr. No. 22**

**Title:** Introduction to global logistics: delivering the goods by Manners-Bell, John.

London Kogan Page Limited 2017

**Acc. No.** 001379

**Call No.** 658.7 MAN

**Summary:** Introduction to Global Logistics offers a detailed examination of key topics, including how the logistics industry has developed, how it is influenced by macro-economic factors and demand-side trends, what the risks are to the industry, and how it will develop over the coming years. It examines important trends and developments that are shaping the industry, including 3D printing, megacities, and post-harvest food losses.

**Sr. No. 23**

**Title:** Introduction to industrial organization by Cabral, Luis M. B.

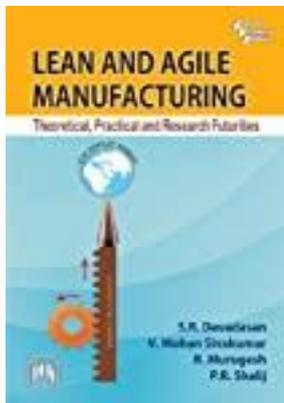

New Delhi PHI Learning Pvt. Ltd. 2017

**Acc. No.** 001380

**Call No.** 338.6 CAB

**Summary:** The study of industrial organization (IO)—the analysis of the way firms compete with one another—has become a key component of economics and of such related disciplines as finance, strategy, and marketing. This book provides an issue-driven introduction to industrial organization. Although formal in its approach, it is written in a way that requires only basic mathematical training.

[Click for more details](#)

**Sr. No. 24**

**Title:** Lean and agile manufacturing: theoretical, practical and research futurities by Devadasan, S.R.

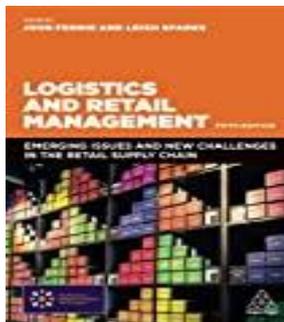

New Delhi PHI Learning Pvt. Ltd. 2017

**Acc. No.** 001381

**Call No.** 620 DEV

**Summary:** Contemporary fastidious companies are required to eliminate wastes and offer value-added products and services to the customers, which requirement is fulfilled by adopting the paradigm called 'lean manufacturing'. On the other side, futuristic companies surge towards reaching the twenty-first century mission by reacting quickly in accordance with the dynamic demands of the modern customers, for which researchers have been developing a paradigm called 'agile manufacturing'.

[Click for more details](#)

**Sr. No. 25**

**Title:** Logistics and retail management: emerging issues and new challenges in the retail supply chain by Fernie, John

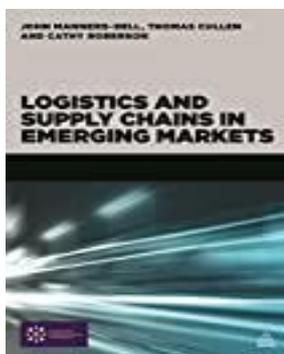

London Kogan Page Limited 2019

**Acc. No.** 001382

**Call No.** 658.5 FER

**Summary:** This fifth edition of Logistics and Retail Management covers the major strides made in retail logistics and the challenges which remain, providing students and professionals with the current thinking and research in this strategic field.

[Click for more details](#)

**Sr. No. 26**

**Title:** Logistics and supply chains in emerging markets by Manners-Bell, John.

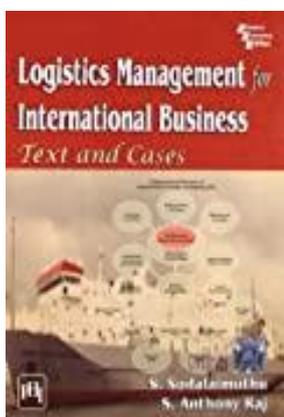

London Kogan Page Limited 2014

**Acc. No.** 001383

**Call No.** 658.7091724 MAN

**Summary:** Emerging markets hold the key to the development of the global logistics industry over the next 20 years. Whilst developed economies struggle to come to terms with huge levels of debt, newly industrialized markets are showing strong growth prospects as manufacturers and investors look at low-cost production locations. Essential reading for anyone involved in emerging markets or global logistics, Logistics and Supply Chains in Emerging Markets is the definitive guide to maximising opportunities in emerging markets.

[Click for more details](#)

**Sr. No. 27**

**Title:** Logistics management for international business: text and cases by Sudalaimuthu, S.

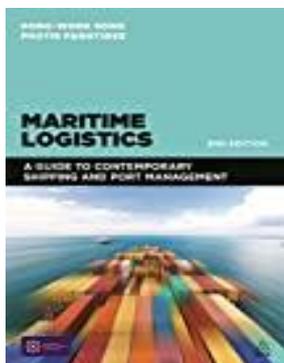

New Delhi PHI Learning Pvt. Ltd. 2021

**Acc. No.** 001384

**Call No.** 658.788 SUD

**Summary:** This book gives, with theoretical and practical expertise, a comprehensive coverage of the logistic concepts, techniques, and their applications in the world cargo industry. Besides, it provides an in-depth understanding of the strategic framework of Logistics Management, the technologies, and the components used in logistic operations. It also covers export-import trade and documentations, shipping formalities, warehouse and inventory management, ERP concepts, logistics operation of major ports—and more.

[Click for more details](#)

**Title:** Maritime logistics: a complete guide to effective shipping and port management by Song, Dong-wook.

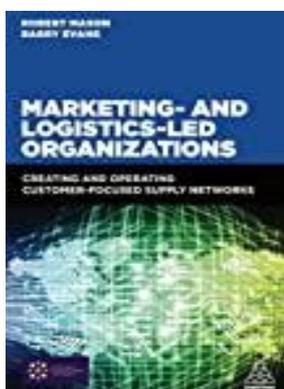

London Kogan Page Limited 2015

Acc. No. 001385

Call No. 387.068 SON

**Summary:** Maritime Logistics covers the whole scope of maritime logistics and examines latest logistical developments within the port and shipping industry. With a range of new international contributors, this new edition has been thoroughly revised and updated. There are new chapters on port centric logistics, hinterland logistics and global supply chains, maritime transport and logistics as a trade facilitator, and future trends and developments

[Click for more details](#)

**Sr. No. 29**

**Title:** Marketing- and logistics-led organizations: creating and operating customer-focused supply networks by Mason, Robert.

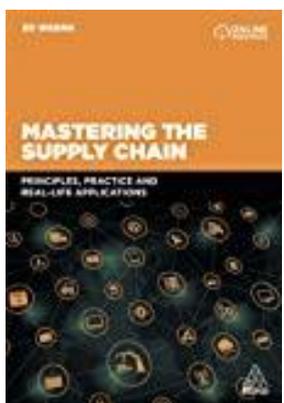

London Kogan Page Limited 2018

Acc. No. 001386

Call No. 658.5 MAS

**Summary:** Marketing and Logistics Led Organizations takes an in-depth look at physical supply chains where manufacturing of a product occurs from groceries to pharmaceuticals, and from automotive to construction. The authors examine omni-channel, how this affects the customer experience and the need for a joined-up strategy which is operationalised across all channels. They also look at the challenges of digitalisation and the customer interface with the growth of the internet as well as the intensification of competition across all sectors.

[Click for more details](#)

**Sr. No. 30**

**Title:** Mastering the supply chain: principles, practice and real-life applications by Weenk, Ed.

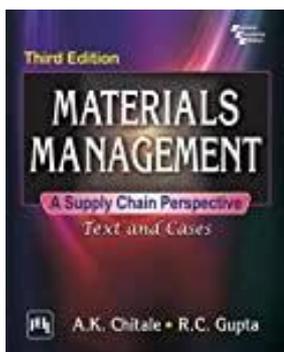

London Kogan Page Limited 2019

Acc. No. 001387

Call No. 658.5 WEE

**Summary:** Mastering the Supply Chain is an introduction to supply chain management. The book integrates theory with practice and aims to create a cross-functional mindset in students and practitioners. It provides a wide overview of relevant supply chain concepts and sets out the challenges that need to be overcome in order to find practical ways of implementing these in a real company situation. Readers are continuously asked to actively reflect on the choices they make, thus experiencing first-hand the many challenges that good and effective supply chain management presents.

**Sr. No. 32**

**Title:** Operations management by Bhattacharya, Subimal.

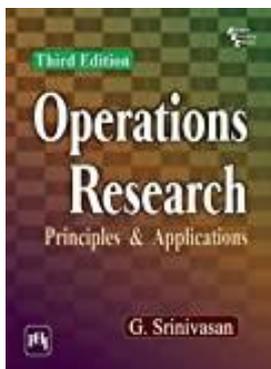

New Delhi PHI Learning Pvt. Ltd. 2014

**Acc. No.** 001389

**Call No.** 658.5 BHA

**Summary:** A successful Operations Management (OM) requires a totality perspective: it has to have a cross-functional approach, involving all operations functions, such as Engineering, Human Resource Management (HRM), Purchasing, Manufacturing, Logistics, Accounting, Finance, and Marketing. This book comprehensively delves on all components of Operations Management and pans out practical approaches for their effective and efficient handling.

[Click for more details](#)

**Sr. No. 33**

**Title:** Operations research: principles and applications by Srinivasan, G.

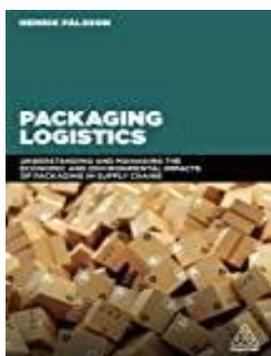

New Delhi PHI Learning Pvt. Ltd. 2021

**Acc. No.** 001390

**Call No.** 658.4034 SRI

**Summary:** This text, now in the Third Edition, aims to provide students with a clear, well-structured and comprehensive treatment of the theory and applications of operations research. The methodology used is to first introduce the students to the fundamental concepts through numerical illustrations and then explain the underlying theory, wherever required. Inclusion of case studies in the existing chapters makes learning easier and more effective.

[Click for more details](#)

**Sr. No. 34**

**Title:** Packaging logistics: understanding and managing the economic and environmental impacts of packaging in supply chains by Palsson, Henrik.

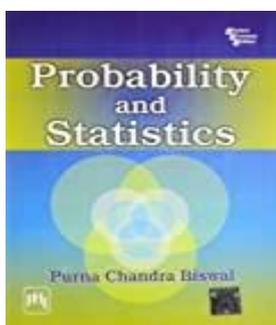

London Kogan Page Limited 2018

**Acc. No.** 001391

**Call No.** 658.564 PAL

**Summary:** Packaging has a major impact on supply chain performance, as it affects all logistics activities in supply chains. Effective and efficient packaging can significantly improve the performance of companies by generating value and reducing costs and the negative environmental impacts in supply chains.

[Click for more details](#)
